## SUMMARY

**Skilled Java Developer with Angular expertise**, experienced in building scalable web applications using Java, Spring Boot, and Angular. Strong in backend API development and integration with modern frontends. Proficient in Agile methodologies, clean code practices, and responsive UI design for both on-premise and cloud deployments.

## EDUCATION

GLA University, Mathura

Aug 2019 - June 23

B. Tech in Computer Science & Engineering

## TECHNICAL SKILLS & INTERESTS

### Key Skills:

- **Languages:** Java, JavaScript, TypeScript, AJAX, JSP, HTML, CSS
- **Technology:** Spring Boot, Angular, Java / J2EE, Spring MVC, Hibernate, Rest API, Maven, Microservices, Agile.
- **Cloud:** AWS Ec2, S3 bucket, AWS Pipe line,
- **Databases:** MongoDB, MySQL, H2Database, PostgreSQL.
- **Tools:** Postman Api | IntelliJ | VS Code| GitHub actions | GitHub Org | MySQL work bench | CI CD Pipeline.

## EXPERIENCE

Great River Financial services Inc, Vancouver, Canada (Remote)

Apr 2025 –current

### Junior Developer & Project Coordinator

- Worked on full-stack development using Java, JSP, Hibernate for web applications.
- Coordinated project timelines and task assignments to ensure smooth project delivery.
- Collaborated with cross-functional teams and followed Agile practices for efficient development.
- Delivered clean, maintainable code and ensured backend/frontend integration.

S2infinitem Softech Pvt Ltd, Noida

Mar 2023 –Mar 2025

### Full Stack developer(Angular & Spring boot)

#### Assent MedTech – Multi-Tenant Healthcare Platform

- Developed core features for doctor-patient consent management, improving workflow efficiency.
- Built feedback form functionality and backend dashboard to enhance user experience.
- Integrated messaging service to streamline communication across the platform.
- Implemented SMS service and WebSocket-based messaging for real-time communication and alerts.

#### Smart Estate – Multi-Tenant Real Estate Management System (Team Lead – Java & Angular)

- Led development of lead management, meeting scheduling, and employee tracking modules for builders and brokers.
- Built front-end using Angular and Angular Material (tables, filters, pagination) for lead listing and tracking.
- Designed and integrated REST APIs for real-time lead data sync, follow-ups, visit tracking, and meeting management.
- Implemented ngx-calendar for intuitive meeting scheduling with dynamic backend integration.
- Developed Lead Distribution Rules UI to automate lead assignment based on employee quotas (daily/weekly/monthly).
- Oversaw full-stack delivery, ensured API/UI consistency, and optimized collaboration across modules.

#### E-Commerce Platform – Multi-Tenant Web Application

- Developed Angular-based Admin Dashboard for managing product listings, categories, and sales metrics.

- Integrated REST APIs for product management, search, filtering, reviews, and order tracking.
- Used Chart.js for visualizing sales and product data, enhancing admin insights.
- Built responsive UI components for product discovery, Wishlist, cart, and real-time shipping/order tracking.
- Ensured smooth user interactions and seamless communication between customer and admin panels.
